*The* Bistrot, a fabulously buzzing metro meets retro hub of good taste of all things creative and culinary keeps things moving along with the welcome of Chef Frazer Wood.

*With* his vast experience of travels across the globe, most recently cooking up a storm in London and Australia Frazer is looking forward to continuing the success of The Bistrot, of enjoying the decorative atmosphere, and working with the friendly Bistrot team. Welcome to Bali Frazer and readers watch this space for more.

*Now* open on buzzing Jalan KayuAya (also known as Jalan Laksmana and Jalan Oberoi) fondly known as the "eat Street" of Seminyak (opposite Red Carpet Champagne Bar) this Bistrot style restaurant and bar has been conceptualized and lovingly put together by the formidable Moroccan ~ Belgian team of Zohra (an award winning interior designer) and Blaise (founder of Hishem furniture) and is another winning collaboration after their combined successes of The Shaba, Villa Balquise and Balique.

*An* impressive air-conditioned yet high ceilinged open space, upon entering you immediately feel welcomed and reminded of a New York loft/factory space with a distinct industrial feel, this is definitely metro does retro. However, the interior furnishings pay homage to many antiques and artifacts sourced from around the Indonesian

archipelago, most being from the couple's personal collection. Even the many brightly coloured photographs adorning the walls have been taken by Blaise, and can be bought if so desired.

*The* menu is absolutely delicious, with a good balanced combination of soul foods, incorporated into a modern bistro touch, inspired by the typical French 'brasserie' that does however honour the best of world cuisine. The Bouillabaisse, is recommended along with the classic Tuna Tartar, Tapas, Filet Mignon au PoivreVert, Moroccan Spiced Baked Red Snapper, crisp salads such as Slippery Lobster and Pomelo. Desserts are a celebration of sweetness -why not try the Young Mango TarteTatin, Spiced Fruit Salad or Bitter Sweet Chocolate Souffle with homemade Hazelnut Gelato.

*Evening* brings on a sophisticated glow from the many trademark lamps of Zohra's design or from the vast antique lamp collection, and at the upstairs bar, a cocktail or two – Mojito Royale, French 75 or a Martini of choice - will glamorously and amorously get the night started. Bistrot is original, fun, delicious and very 'fairytale' adult – allow yourself to venture back into a bygone era with all the comforts of the present. This is going to be a big hit in Bali, as there is nothing else quite like it – so get in now before the reservation list gets too big!
